Key Financials

Manufacturing & Product Highlights

- Extensive Product Range – Includes furniture (folding, storage, beach, children's) and pet accessories, all tailored for durability and aesthetic appeal.
- Sustainable Design Philosophy – Designs that prioritize environmental responsibility and functionality.
- In-house design, tooling, and plastic injection molding
- Scalable production with strong distribution channels across LATAM

Existing & Future Markets

Deal Outlook

Holding a leadership position in the region, Company D (MX) is well-positioned to scale its operations further.

Potential growth opportunities include expanding internationally, forming strategic retail or e-commerce partnerships, and introducing premium sustainable product lines.

Group with existing manufacturing holdings seeking to leverage Mexico's competitive cost base to expand its production footprint.

Buyer should have established commercial networks, logistics infrastructure, or distribution partnerships to support growth initiatives into the U.S. market.
